Digital Proprietary Telephones KX-DT300 Series

The Panasonic KX-DT300 Series designed for business users who require a range of feature-rich telephony devices to match their constantly changing business needs.

Ergonomically designed with features and functions to enhance users daily productivity, they are ideal for many applications including contact center agents, hotel rooms, to advanced desktop applications supporting a range of wired and Bluetooth headsets.

Used in combination with the Panasonic PBX, the new Digital Proprietary Telephone with its rich array of features will enhance the efficiency of your business.

This range of easy to use, advanced business class telephone devices are designed for effective daily communications. Connected to Panasonic telecommunications systems, they provide a wide range of features to support the right solution for all your business applications.

KX-DT300
Series

Double-Tilt Design

8-Step Tilt Angles

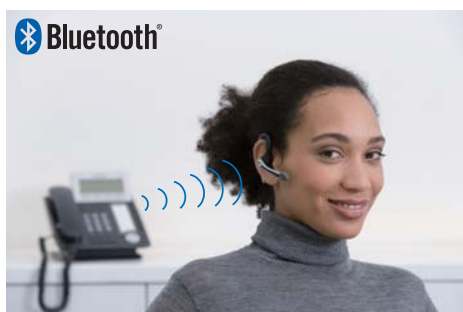

Headset Jack

» Main Features

Hands-Free Communication with a Bluetooth® Headset

Mounting the KX-NT307 lets you connect a commercially available Bluetooth® headset for hands-free communication (Answer a call/End a call/Voice communication). This makes it possible to operate a PC during conversations and to communicate comfortably at a distance from the telephone.

High-visibility white backlight*1

DT346 and DT343 are used white backlit LCD. And It gives high visibility with black characters.

*1 Not available on the DT333/321

Double-Tilt Design*2

The double-tilt design lets you adjust the base unit and LCD angles to match desks, tables, or any location. The base unit can be adjusted in eight steps, and the LCD moves separately to optimise the viewing angle.

*2 Not available on the DT321
