

Panasonic KX-PRX 120 Android Home Cordless Phone

Powered by the popular Android 4.0 mobile operating system and access to the Google Play store, the Panasonic KX-PRX 120 is a cordless DECT landline phone providing all of the features of a typical modern smartphone, including a camera, Web browser and access to thousands of mobile apps and games.

Intuitive Operation

Sporting a stylish and compact design, the Panasonic KX-PRX 120 also has a generously large 3.5" capacitive touchscreen for exceptional ease of use for anyone who is familiar with today's smartphones. Small and lightweight, it is also convenient for carrying around with you while you continue with your daily chores, and the battery provides plenty of talk time too.

Video Calls Supported

Greatly expanding on the functionality of even the most high-end cordless landline phones, the Panasonic KX-PRX 120 also serves as a video-conferencing device, enabling you to take online video calls using the 0.3MP front-facing camera. This camera may be used with all popular VoIP video solutions, such as Skype, which is available for free through the Google Play store. Additionally, you'll be able to enjoy excellent sound quality whether you're using the earpiece or conducting hands-free phone calls using the built-in speakerphone.

Block Unwanted Phone Calls

In addition to sporting all of the latest DECT features that you would expect with any high-end modern cordless phone, the Panasonic KX-PRX 120 also allows you to get control over your connected lifestyle by blocking those numbers that you don't want to hear from. Using the call barring function combined with the Caller ID service from your landline provider, you can block up to 100 numbers from phoning you.

Why Should You Buy this Cordless Phone?

The Panasonic KX-PRX 120 is designed for anyone who wants the functionality of a high-end modern smartphone in a cordless home phone.
