

# **KX-TG9471-Two Line Expandable Digital Answering System with Contact Sync**

## **Features**

### **CONTACT SYNC**

Now have your Microsoft Outlook Contact list synched with your telephone. Easily connect your telephone to your PC via USB and make and receive calls with ease. With the Panasonic Contact Sync telephone, you can make a call directly from your Outlook contact list that is on your PC screen with 1 click, or when a call is received the caller information will pop up on your PC screen if their contact information is stored within Outlook.

### **DECT 6.0 Technology means less Interference**

Engineered to work in 1.9GHz frequency, our DECT 6.0 phones won't conflict with common wireless devices such as 2.4GHz routers, wireless keyboards and mice, microwave ovens and other household items. And because it's digital, you'll enjoy long range and clear sound while deterring eavesdropping.

### **2-LINE OPERATION**

Perfect for home or business, two-line operation means you can conference in two outside lines to have a three-way conversation. Or place your current call on hold to make another call

### **EASY TO SEE LCD**

The large 3.5-inch white backlight LCD on base unit with a tilt function allows for ease of use. Easily adjust the angle of the screen so you can clearly see who is calling, and a large, bold font size makes the caller ID information crisp and clear.

### **NIGHT MODE LETS YOU CHOOSE WHERE THE PHONE RINGS**

Now you can program each handset to ring; or not... at your discretion. Before going to sleep, simply set the bedside handset to Night Mode so that it won't ring in your bedroom. In the meantime, the handset in the den will still ring when that important call comes in without disturbing the person who's sleeping.

- White Backlit LCD on base
- Headset Jack
- All-Digital Answering Machine

- Ringer ID
- Up to 3-Way Conference Capability
- Expandable up to 6 Handsets
- Lighted Handset Keypad

## Specifications
