## **Features**

This sleek, home and home office phone system not only makes everyday calling easier, a dedicated Call Block button makes it one-touch simple to register up to 250 unwanted numbers. Expandable to 6 handsets, this reliable call management system includes a baby monitor, bright 2.5-inch LCD for maximum readability, 100 number phonebook, 17 minutes of voice messaging, noise reduction, power backup and key detector compatibility.

\*Image(s) are intended to communicate the product feature, actual phone image may vary by model.

One-Touch Call Block With dedicated Call Block buttons on both base unit and handset, it's easier than ever to block telemarketers, robocallers and others — even while the phone is ringing or while talking. A simple push of a button instantly registers the unwanted number into the phone's 250-number call block database, and you can manually register any number, any time you want.

Talking Caller ID When a call comes in the handset will announce the name of the caller.

Clearly Hear Who's Calling with Noise Reduction Whether someone's calling from a busy city street or inside from a raucous room, Noise Reduction automatically suppresses background interference while also enhancing voice tones for clearer, more comfortable conversation.

Keep Tabs On the Baby Day or Night With the built-in baby monitor, you'll always know your child is safe in their crib or room. When the child wakes up or starts crying, a monitoring handset in the baby's room sends an immediate alert to the system's base unit, and to any phone or cellphone number you store in the handset for optimal peace of mind in or out of the house.

Keep Talking When the Power Goes Out The phone's powerful battery backup system keeps you connected in the event of a power outage. And when you keep a charged handset in the base unit, you'll have up to 7 hours of talk time of battery power backup for making and receiving calls during power outages using other cordless handsets in the house. (Two AA-size rechargeable Ni-MH batteries not included.)

Find Household Keys in an Instant With a small, optional detector device on your household or car keychain, this Key Detector-ready phone system lets you quickly locate misplaced keys when you need them with a button on the cordless handsets.

Big, Bright LCDs for Maximum Readability Clearly and quickly see numbers, alerts and calling info in any light conditions on the base unit's large, high-contrast 2.5-inch LCD and on super-clear handset LCDs.
