

Description of Panasonic KXTGE212 / KX-TGE212B:

Talking Text Sender Alert

When a call comes in through your linked cell or smartphone (Link2Cell), the handset will announce the name or phone number of the sender using the text-to-speech function. (Select models only)

Text Message Alert

Never miss an important text because you don't have your cell phone with you. Models equipped with Text Message Alert signal the home phone handsets when you receive a text on your cell phone.

Locates Cell

Simply press the Locates Cell" button on the base unit if you've misplaced your cell or smartphone. This feature will locate your cell or smartphone by causing it to ring*. *Cellphone cannot be in vibration or silence mode.

Smart Function Key

New 2014 models equipped with the Smart Function Key button on the handset and the base unit offer a single-click solution to accessing other features, such as retrieving voice messages, viewing missed calls, receiving calls or turning alarms off.

Enhanced Noise Reduction

The Enhanced Noise Reduction feature available on select 2014 models lets you suppress background noise around the caller while simultaneously enhancing their voice making it easier to hear them. So a parent getting a call from their teenager at a concert can hear what time to pick them up or when a friend calls from a noisy ballgame, you can hear where to meet afterwards.

Key Detector

Attach the optional Key Detector to your car key ring or other easily mis- placed items and forget about ever losing them ever again. Using any of your telephone handsets, you can activate the Key Detector's beeping alarm and quickly track down your lost keys. Key Detector's powerful range finds objects up to 200 yards away so you'll find whatever's lost whether it's upstairs, in your car or in the yard. You can register up to four Key Detectors and give each a distinctive name, like Dave's keys, Sharon's keys, etc.

Intelligent Eco Mode

This feature automatically lowers the power consumption when you're using the handset close to the base unit. Not only does it extend the available talk time, it's good for the environment. When less power is used by the handset to communicate with the base unit, battery life is prolonged which results in less frequent charging and can result in fewer batteries in landfills.

- Talking Text Sender Alert ^{1,6}
- Text Message Alert ¹
- Locates Cell ¹
- Easy-to-use Big Buttons on Handset & Base
- Amplified Handset Volume with Dedicated Volume Key

Talking Text Sender Alert

When a call comes in through your linked cell or Smartphone (Link2Cell), the handset will announce the name or phone number of the sender using the text-to-speech function.

Enhanced Noise Reduction

The Enhanced Noise Reduction feature available on select 2014 models lets you suppress background noise around the caller while simultaneously enhancing their voice making it easier to hear them. So a parent getting a call from their teenager at a concert can hear what time to pick them up or when a friend calls from a noisy ballgame, you can hear where to meet afterwards.

Key Detector Compatible

Attach the optional Key Detector to your car key ring or other easily misplaced items and forget about ever losing them ever again. Using any of your telephone handsets, you can activate the Key Detector's beeping alarm and quickly track down your lost keys. Key Detector's powerful range finds objects up to 200 yards away so you'll find whatever's lost whether it's upstairs, in your car or in the yard. You can register up to four Key Detectors and give each a distinctive name, like Dave's keys, Sharon's keys, etc.

Power Back-Up Operation

A powerful battery back-up system keeps you connected when the power goes out. Keep a charged handset in the base unit and you can still make and receive calls with the other cordless handsets.

DECT 6.0 PLUS Technology

Enhanced version of DECT 6.0 in which transmission quality and range are improved by increasing the frequency of error correction up to 80x.

Large, 1.8" White Backlit Handset Display

See who's calling at a glance on our wide, 1.8-inch LCD and set screen. Featuring black against a white-backlit display, it's crystal clear and easy to read-even from a short distance away.

Intelligent Eco Mode

This feature automatically lowers the power consumption when you're using the handset close to the base unit. Not only does it extend the available talk time, it's good for the environment. When less power is used by the handset to communicate with the base unit, battery life is prolonged which results in less frequent charging and can result in fewer batteries in landfills.
